

CONTENTS

<i>Klochkova V. G., Panchuk V. E.</i> Spectroscopic investigation of the PPN candidate AI CMi = IRAS 07331+0021	5
<i>Shapovalova A. I., Burenkov A. N., Bochkarev N. G.</i> Spectral monitoring of NGC 4151 and 3C390.3 at the 6 m telescope	28
<i>Guseva N. G., Izotov Yu. I., Kniasev A. I., Lipovetsky V. A.</i> Spectrophotometry with low and moderate spectral resolution for the blue compact galaxies	41
<i>Klochkova V. G., Topilskaya G. P.</i> Spectroscopic criteria of the effective temperature for F-supergiants	52
<i>Klochkova V. G., Yermakov S. V., Panchuk V. E.</i> Express method of search for strong magnetic fields	58
<i>Trushkin S. A.</i> Multi-frequency observations of supernova remnants with the RATAN-600 radio telescope	64
<i>Glagolevskij Yu. V.</i> Conditions of search for magnetic stars at early evolution stages	80
<i>Georgiev Ts. B.</i> CCD stellar photometry in 13 dwarf irregular galaxies	88
<i>Georgiev Ts. B., Bilkina B. I., Dencheva N. M., Valchev T. S.</i> Detection of red supergiant stars on the colour-colour diagrams in the system UBVRI	123
<i>Georgiev Ts. B.</i> Fast image processing methods for PC: 4. Iterative cleaning of the impulse noise.	132
<i>Vojkhanskaya N. F.</i> SS Cygni — an intermediate polar or a dwarf nova?	134
<i>Verkhodanov O. V.</i> On one algorithm of fitting of the function, preassigned by table, to tabular refined points.	140
<i>Najdenov I. D., Panchuk V. E.</i> Zeeman effect measuring devices in the spectrometers of the BTA Nasmyth foci	143
<i>Chernenkov V. N.</i> A spike immunity method of digital integrating radiometer signals	148
<i>Panchuk V. E., Tavalzhanskaya N. S., Chepizhko A. V.</i> Monitoring of Earth's atmosphere by astrophysical means	154
